

Budget update 2019/20

3 April 2019

How will the Federal Budget affect you?

This year's Federal Budget is an 'election budget' with future tax cuts for all Australians, especially low and middle income earners. Overall, there were minimal changes to super proposed in the Budget, with minor changes to super contributions for older Australians.

We've summarised some of the key points from the Budget below, but remember these are subject to the passing of legislation.

- From 1 July 2022, the upper personal income tax threshold for the 19% tax rate will increase to \$45,000.
- From 1 July 2024, the 32.5% tax rate will reduce to 30%.
- Increase to the tax offset for low and middle income earners.
- Increase to the age at which people can contribute to super without meeting the work test.
- A one-off energy assistance payment for people receiving government assistance.

Superannuation

Superannuation contributions for older Australians

From 1 July 2020, there will be no work test for people aged 65 and 66 when making concessional and non-concessional contributions. Currently, you need to work at least 40 hours over a 30 day period to contribute.

Also, the three-year bring-forward for non-concessional contributions is proposed to be extended to people aged 65 and 66 which means they could contribute up to \$300,000 in non-concessional and \$25,000 concessional contributions in one year.

Spouse contributions

From 1 July 2020, you can continue to receive spouse contributions up to age 74, up from age 69, if the work test is met. This will help couples even up their super balances as they near retirement.

Protecting Your Super Package

In March 2019, the Protecting Your Super Package legislation passed. This means:

- if you have a super balance of below \$6,000, administration and investment fees will be capped at 3%
- from 1 July 2019, you will no longer be charged an exit fee
- if your account has been inactive for 16 consecutive months your insurance cover will cease.

The proposal to ensure insurance is only offered on an opt-in basis for accounts with balances of less than \$6,000 and new accounts belonging to members under the age of 25, did not pass into legislation. The Government will delay the start date for this measure until 1 October 2019.

Tax

Personal income tax cuts

The Government proposes the following personal income tax rates.

- From 1 July 2024, the 32.5% tax rate will reduce to 30%.
